

NOVOS CINEMAS#LAB

Description

Novos Cinemas' aesthetic ideology relies on three interconnected factors: cinema exhibition, meeting the experts, and proper training. All of them contributed to the formation of **NOVOS CINEMAS#LAB**: a program specially designed to provide a *training and tutoring environment* to foster the development of nascent projects by emerging filmmakers.

#LAB's main purpose is to encourage the meeting of skilled, professional filmmakers and agents that are receptive to independent film projects. Our goal is to help promising independent works become fully developed films and to effectively bring them into the constantly evolving cinema market, with its countless variables in terms of supply and demand.

The **NOVOS CINEMAS#LAB** program will be divided into two phases. In the first phase, the organization of Novos Cinemas will select up to four projects. In the second phase –during Edition 01 of Novos Cinemas–, a team of professionals with proven experience and international prestige will examine, evaluate and supervise the selected projects.
